

AASIF SAIFI

Software Developer

📞 9368624226 @ aasifsaifi9280@gmail.com 🌐 <https://github.com/voidAasif>
📍 Chindori Patti Dalu, Chindori Khas, Rohta (Meerut), UP, 250502

SUMMARY

Skilled software developer with a strong foundation in Java, SQL, and Linux environments. Adept at developing full-stack applications, leveraging technologies such as Java Swing, JDBC, and web development languages like HTML and CSS. Proficient in working with databases such as MySQL and MariaDB, with hands-on experience in data retrieval and manipulation using JDBC. Strong knowledge of Linux, including command-line operations and system management. Passionate about problem-solving, developing custom user interfaces, and continuously expanding knowledge in areas like JavaFX, JavaScript, and networking applications.

EDUCATION

Bachelor of Technology

Dewan VS Institute of Engineering and Technology
2021 - 2025

Secondary School

S.S.S Inter College Rasna – Meerut, India
2018 - 2021

EXPERIENCE

Software Development Projects

Independent Projects

- **System Specification Viewer:** Developed the "aboutSystem" software using Java, Java AWT, and Java Swing to display comprehensive system specifications such as OS version, processor, memory, and display details. Enhanced the GUI for a smooth user experience.
- **User Authentication System:** Designed a login and signup page using Java, Java AWT, Java Swing, and Java Collections. Integrated a SQL database to securely store user credentials and manage authentication for various users.

Web Development Projects

- **Portfolio Website:** Built a responsive portfolio website for an interior and exterior designer using HTML and CSS. Showcased design projects and services, ensuring optimal performance across devices.

Linux System Management

- Proficient in managing Linux environments, with experience in troubleshooting, optimizing, and automating tasks using shell scripting.

SKILLS

- **Programming Languages:** Java, SQL, HTML, CSS, Intermediate C
- **Technologies & Frameworks:** Java Swing, Java AWT, JDBC, JavaFX
- **Database Management:** MySQL, MariaDB, SQLite
- **Web Development:** Responsive Design, Front-End Development
- **Linux:** Command-line operations, Shell scripting, System management,
- **Tools:** IntelliJ IDEA, NetBeans, Visual Studio Code, MySQL Workbench, SQLite Browser
- **Soft Skills:** Problem-solving, Attention to detail, Continuous learning
- **Advanced Skills:** Advanced Java

PASSIONS

I am passionate about creating innovative software solutions and exploring new technologies. My enthusiasm for programming drives me to continuously enhance my skills and tackle complex challenges. I am particularly interested in developing user-friendly applications that leverage advanced technologies and robust design principles. Outside of coding, I enjoy learning about system architecture, improving my proficiency in Linux environments, and finding creative ways to apply technology to real-world problems.

KEY ACHIEVEMENTS

'aboutSystem' Software: Developed a Java application to display detailed system specifications using Java AWT and Swing.

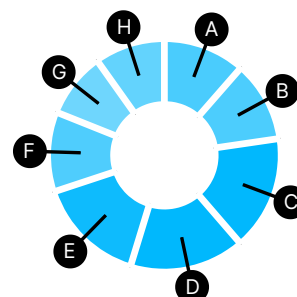

User Authentication System: Implemented secure login and signup functionality with Java, AWT, Swing, and SQL.

Portfolio Website: Created a responsive site for an interior and exterior designer using HTML and CSS.

Linux Proficiency: Improved Linux system management and shell scripting skills.

Advanced Java Skills: Enhanced Java programming capabilities, focusing on advanced concepts and efficient solutions.

MY TIME

- A JAVA
- B JAVA AWT
- C JAVA SWING
- D JAVA JDBC
- E JAVA COLLECTION
- F SQL, SQLLITE
- G LINUX & GITHUB
- H HTML & CSS
